

Title: **My Progress**

Type: **Block**

Moodle version required: **2.0**

Git Repository: <https://github.com/fernandooliveira/moodlefn-myprogress>

Support and Feedback: www.moodlefn.knet.ca

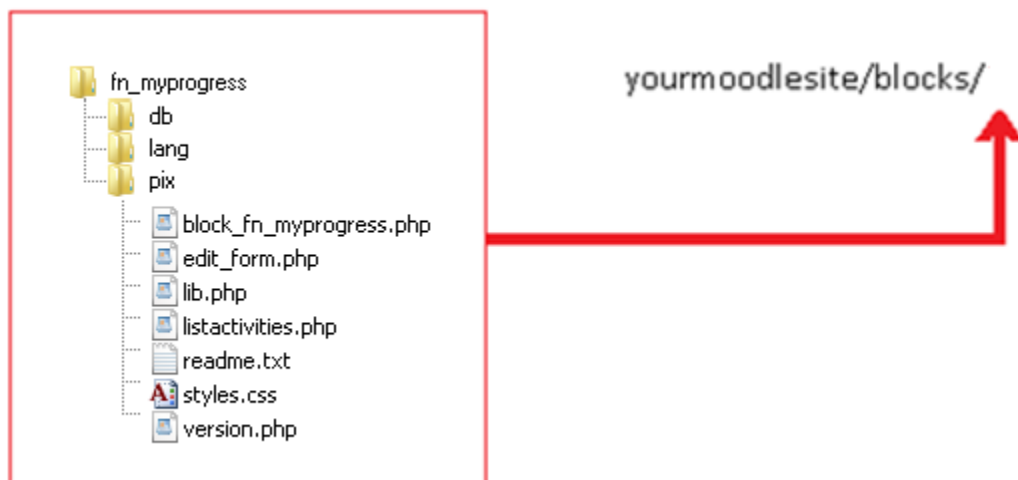

Note: The *My Progress* block was originally created to work with the *Assignment Tracking System (ATS)*. As such, it uses the ATS “status icons”. Both these plug-ins are part of the MoodleFN plug-in series for Moodle 2.x, which can be found on www.moodlefn.knet.ca. Note however that the ATS is not a required component of the My Progress block.

Contents of this document:

- A. Installation Instructions
- B. Overview of My Progress Block

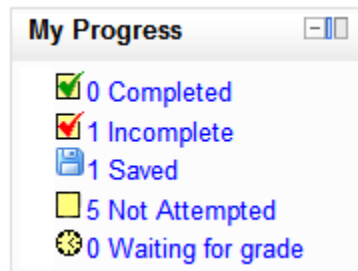

A. Installation Instructions:

1. Click on the following link to download the files for this plug-in:
<https://github.com/fernandooliveira/moodlefn-myprogress/zipball/master/>
2. Unzip the downloaded file and rename top directory to **fn_myprogress**
3. Copy the **fn_myprogress** directory to **yourmoodlesite/blocks/**

B. Overview of My Progress Block

The Progress Report block provides STUDENTS with an overview of their progress in regards to activities in a given course. This block is not shown to teachers. Each line also acts as a link which provides students with a list of the relevant activities (example: when a student clicks on ***X Incomplete*** activities, his/her incomplete activities will get listed).

Note 1: This block relies on the **Activity Completion** feature that was released as part of Moodle 2.0 (more information about this feature can be found at http://docs.moodle.org/20/en/Activity_completion). Activities that do not have the “completion tracking” turned on will not be included in this block.

Note 2: If an activity has a “Require Grade” condition in the Activity Completion setting, then that activity will show as “complete” when it receives **any** grade.

The 'Activity completion' settings form includes the following options:

- Completion tracking**: A dropdown menu set to 'Show activity as complete when conditions are met'.
- Require view**: A checkbox labeled 'Student must view this activity to complete it' (unchecked).
- Require grade**: A checkbox labeled 'Student must receive a grade to complete this activity' (checked). A red arrow points to this checkbox.
- Expect completed on**: A date selector set to '16 November 2011' with an 'Enable' checkbox (unchecked).

However, if the same activity also has the “[grade to pass](#)” option enabled in the gradebook, the activity will show as “Incomplete” until it receives a grade that is equal or greater than the “grade to pass” value.

The gradebook settings form includes the following options:

- Maximum grade**: 20.00
- Minimum grade**: 0.00
- Grade to pass***: 10.00 (A red arrow points to this field).
- Multiplicator***: 1.0000
- Offset***: 0.0000
